This is the landing page www.my2020census.gov. Change the language at any time in the top right-hand corner, or in the bar along the bottom.

Click the blue “Start Questionnaire” Button to begin your form. You must complete the entire form in one sitting. It will not save your responses if you exit. Do not use your browsers navigation buttons, use the navigation within the census form.

The first page asks you to “Log In” with your Unique ID Number found in the mailings the census bureau sent to your household.

If you do not have this ID for any reason, click the blue text “If you do not have a census ID, click here.” You will be prompted to verify the address for which you are completing the form.

The second page asks you to verify the address for which you are completing the form. If it is correct, click “Yes” and then “Next”.
The fourth page verifies that you will be living or staying at the address you just confirmed on April 1, 2020 (Census Day). Even if you are temporarily not at this address on April 1, 2020, if this is your primary residence or stay here the majority of the time, click “Yes” and “Next”.

Enter the name of the person who is filling out the form and a contact telephone number. The telephone number will ONLY be used by the U.S. Census Bureau in case they need to clarify an entry on your form.

The phone number, as well as the rest of your information, will not be shared with ANYONE.

Enter how many people are living or staying at this address. This should include all people who live or sleep there the majority of the time.

This should also include people who do not have a permanent place to live, but are staying on April 1, 2020. For more information on who to include, click the blue text “For more information on who to include, click here”.
Type in the names of all people living or staying at this address. The name you previously entered will be displayed at the top. Enter the first additional name in the blanks. To add more members, click the blue button “Add another person”. To edit or remove an entry, click the blue button “Remove”, next to their name. When all of the members of your household have been listed, click “Next”.

This page verifies that you have entered the names of all members of your household. If all names in your household are listed, click “Yes” and “Next”. If you need to add anyone, click “No” and add the names of additional members.

Describe whether the household is owned, rented, or occupied without payment of rent by picking one of the four options. Then, click “Next”.

For example:
- Children, related or unrelated, such as newborn babies, grandchildren, or foster children
- Relatives, such as adult children, nieces, nephews, cousins, or in-laws
- Nonrelatives or other nonrelatives
- People without a permanent place to live

The names listed so far are:
- John Doe
- Jane Doe

Will there be any ADDITIONAL people that you did not already list?
For more information on who to include, click here.

Yes
No
Select all people that own the household as of April 1, 2020. If no one living at this address owns the household, click “None of the above”. Then, click “Next”.

Now you will answer questions specific to each household member, called “People Questions”. Click the green button “Start” below the first name.

Click “Male” or “Female” to describe the selected person’s sex. Click “Next”.
Enter the birth date and ensure the correct age of the selected person. Click “Next”.

Click the appropriate response(s) to describe whether the selected person is of Hispanic, Latino, or Spanish Origin. Then, click “Next”.

Please note, you can select multiple responses or enter origins not listed.

Click the appropriate response(s) to describe the selected person’s race. Enter any origins as relevant. Then, click “Next”.

13

14

15
You will now see a green checkmark next to the name of those for which you have completed steps 12–15. Click the green “Start” button next to any person for which you need to complete these same questions. Answer the same questions as well as the question in step 17 for every member of your household.

When any additional member’s “People Questions” are being completed, the first question you will be prompted to answer is how that person is related to the person filling out the form.

Once you have completed the “People Questions”, you will move onto the “Final Questions”. Here, select whether any of the members listed in your household usually live or stay somewhere else. If all members primarily stay at this address, select “None of the above”. Then, click “Next”. 
If you selected any of the members in your household in step 18 to indicate that they usually live or stay somewhere else, select any response(s) to describe why they usually live or stay somewhere else. Then, click “Next”.

If you did not select any of the members in your household in step 18, you will not see this question.

This is the final page and the last chance to check and edit any responses. Once submitted, the responses are final. When you are ready, click “Submit Questionnaire”.

Congratulations! You have completed your decennial census! You will see a confirmation page noting the date and time you completed the form and a confirmation number.
